

# The Semantic Range of Spoken Dialogue Systems

MOUŽEK, R., KONOPÍK, M. The Semantic Range of Spoken Dialogue Systems. In *SPECOM 2007 proceedings*. Moscow: Moscow State Linguistic University, 2007. s. 720-724. ISBN: 5-7452-0110-X

---

Paper describes possibilities and limits of semantics processing within development of computerized dialogue systems and human computer interaction. It deals with dialogue strategies and theories relating to objective reality and semantic context.
